

Lights Out Columbus

Digital Data Collection Tutorial

Digital Data Collection

- We will be using a platform called **ArcGIS Survey123** for digital data collection. This is free to use and does not require creating an account.

- This platform can be accessed two ways:
  1. Web browser
  2. App (***highly recommended***)
     1. The app will store the survey for easy access in the field

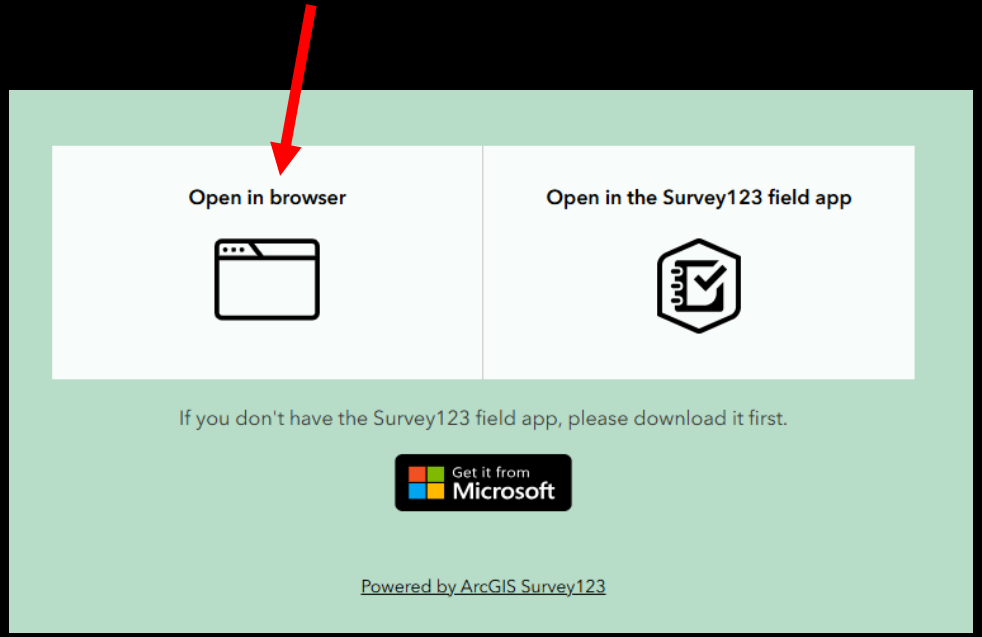

If using a web browser, please follow these steps to access the survey:

1. Follow this link: https://arcg.is/1m5j4z2

OR

Open camera app and scan this QR code:

2. Select "Open in browser" and you will be redirected to the survey called Lights Out Columbus v2.0

If using the app, please follow these steps to access the survey:

1. Download the app **ArcGIS Survey123** with this icon:

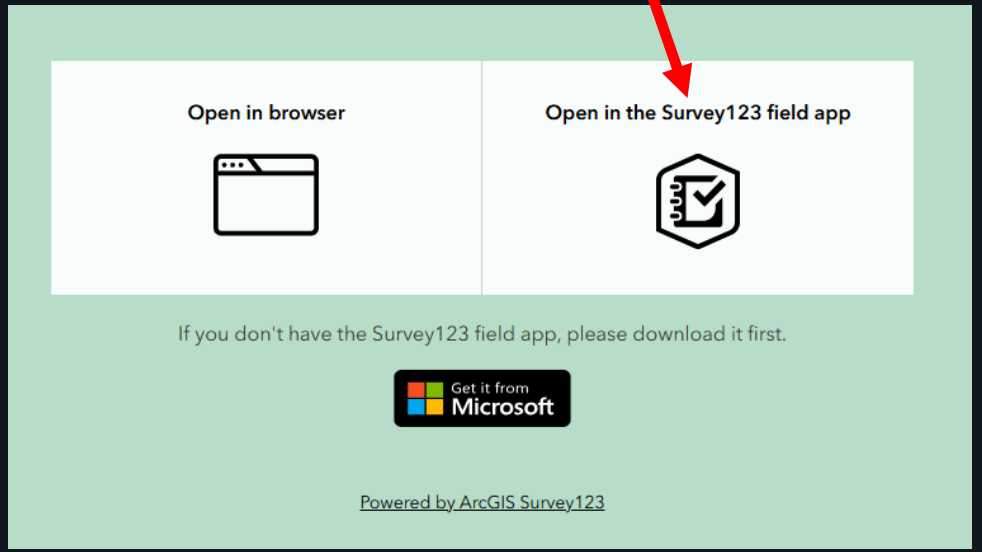

2. Then, follow this link: https://arcg.is/1m5j4z2

OR

Open camera app and scan this QR code:

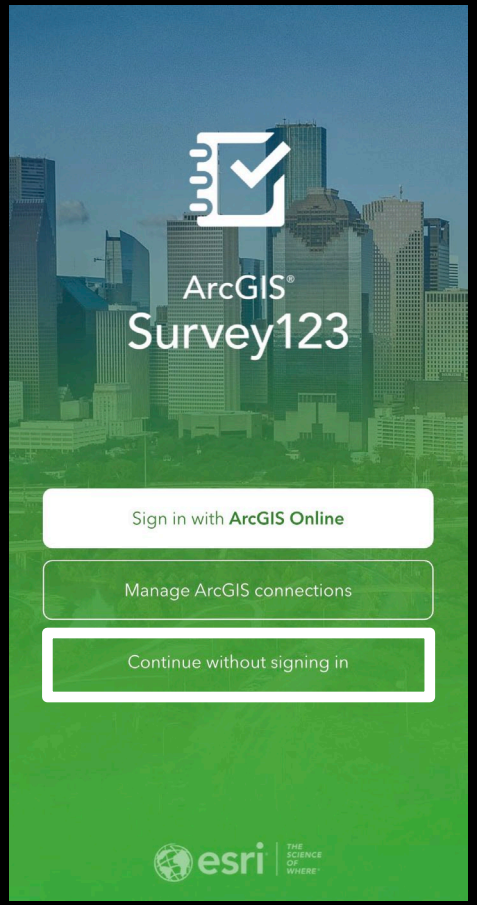

3. Select "Open in the Survey123 field app" and you will be redirected to the survey called Lights Out Columbus v2.0

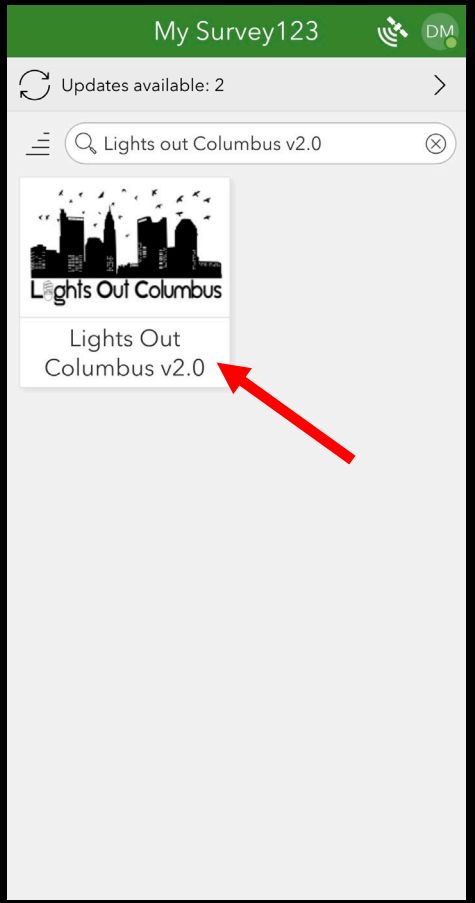

When opening the link in the app for the first time, you will be redirected to the survey

1. The next time you open the app, you will click, "**continue without signing in**"

2. On the next screen you will see the link to the survey, **Lights Out Columbus v2.0** – click to open

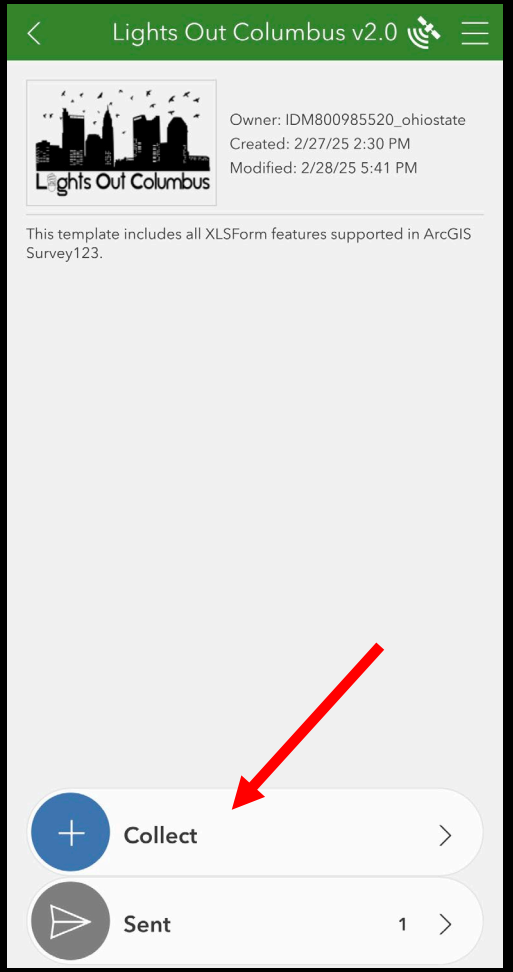

To begin a survey, click “Collect”and then you will be able to begin collecting data

*Each window collision bird (live and dead) will need a completed survey

Think of each survey as a filled-out collection bag

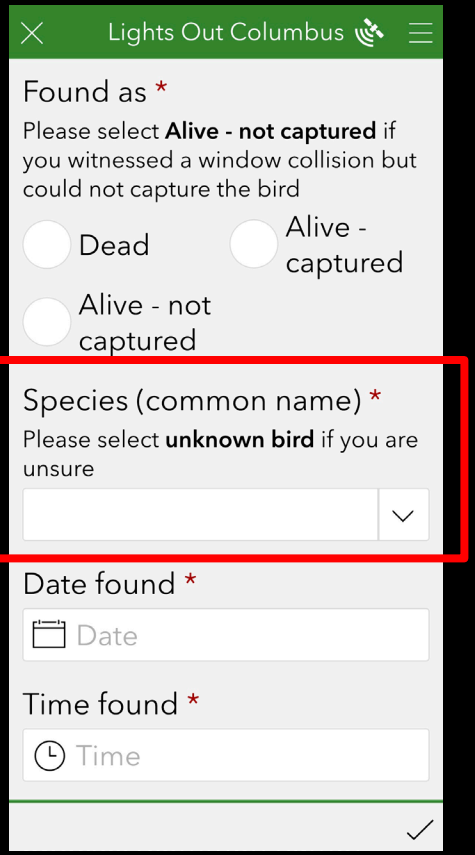

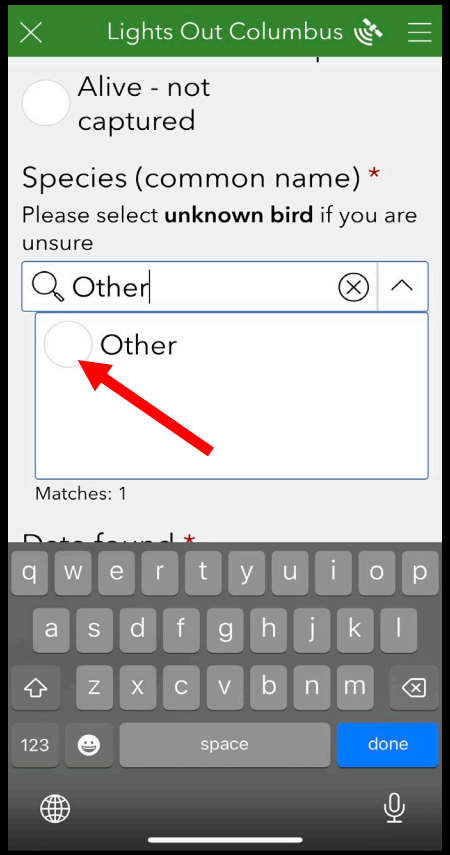

A few notes about the survey questions:

Two questions have a drop -down menu to select an answer.

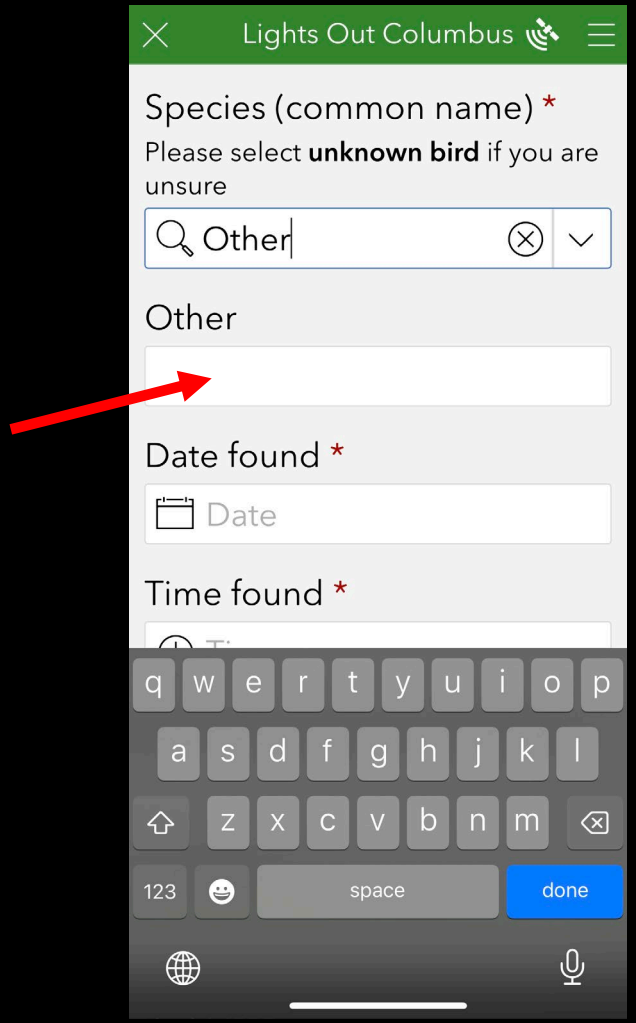

1. Species (common name)
2. Building name and address

If the menu does not have what you need, please type in “other” and select that option

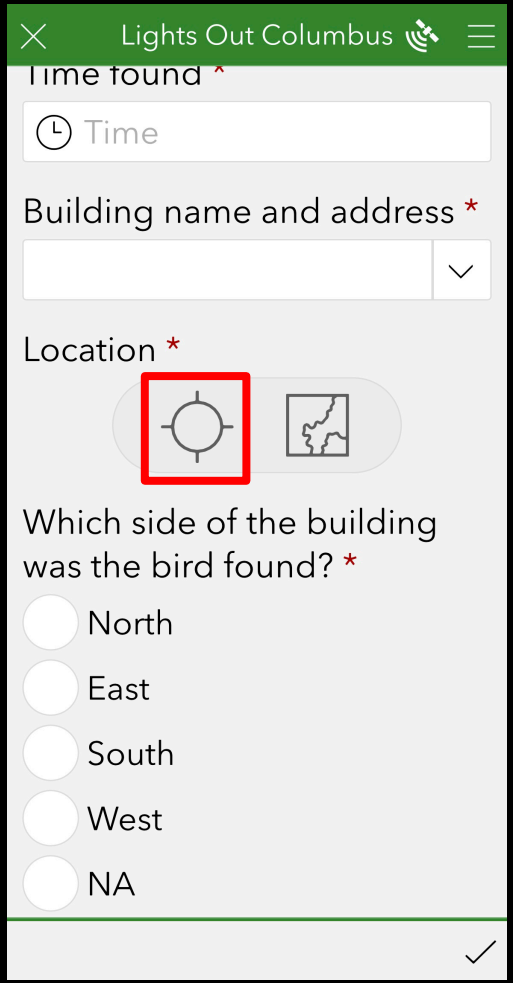

After you select “other”, you will be able to type what you need in the box that populates

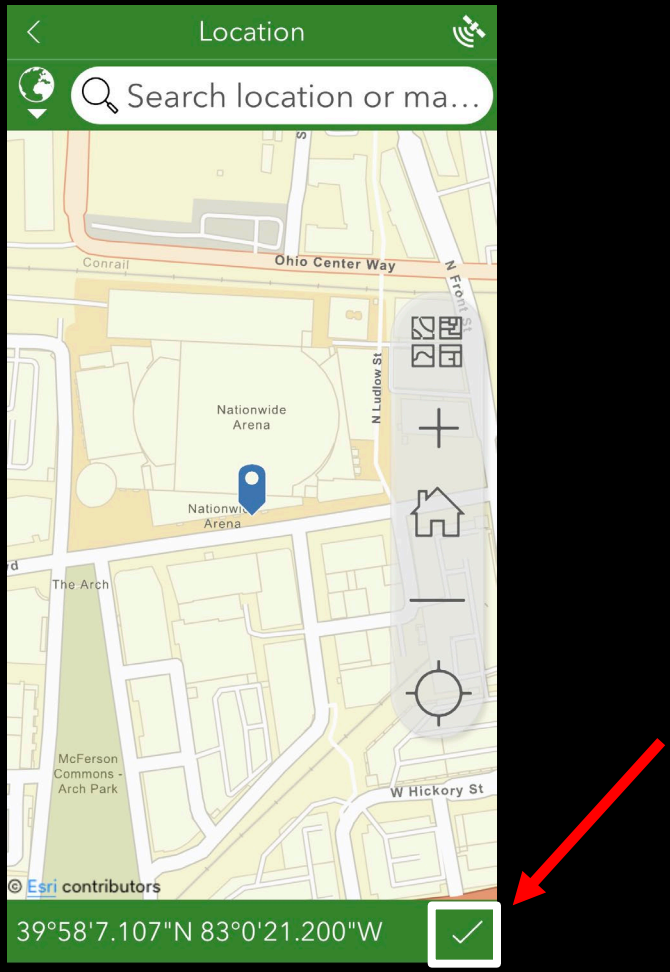

When choosing location, click on the left icon

This will allow the app to give an exact GPS location

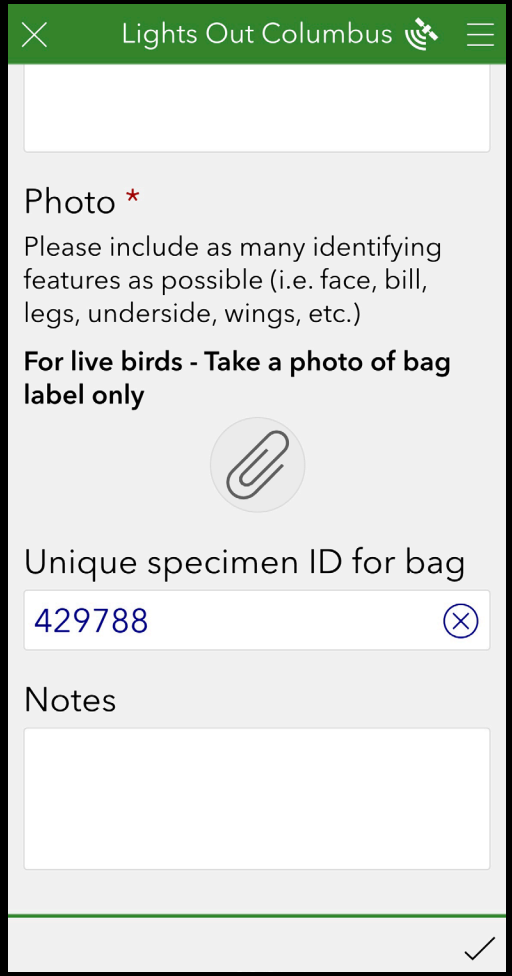

If you need to move the marker, click on the map to open and move the marker

Then click the check in the bottom right corner to save the marker location

To *add a photo* , you will need to choose from the photos on your phone. You can attach multiple images of one bird if needed

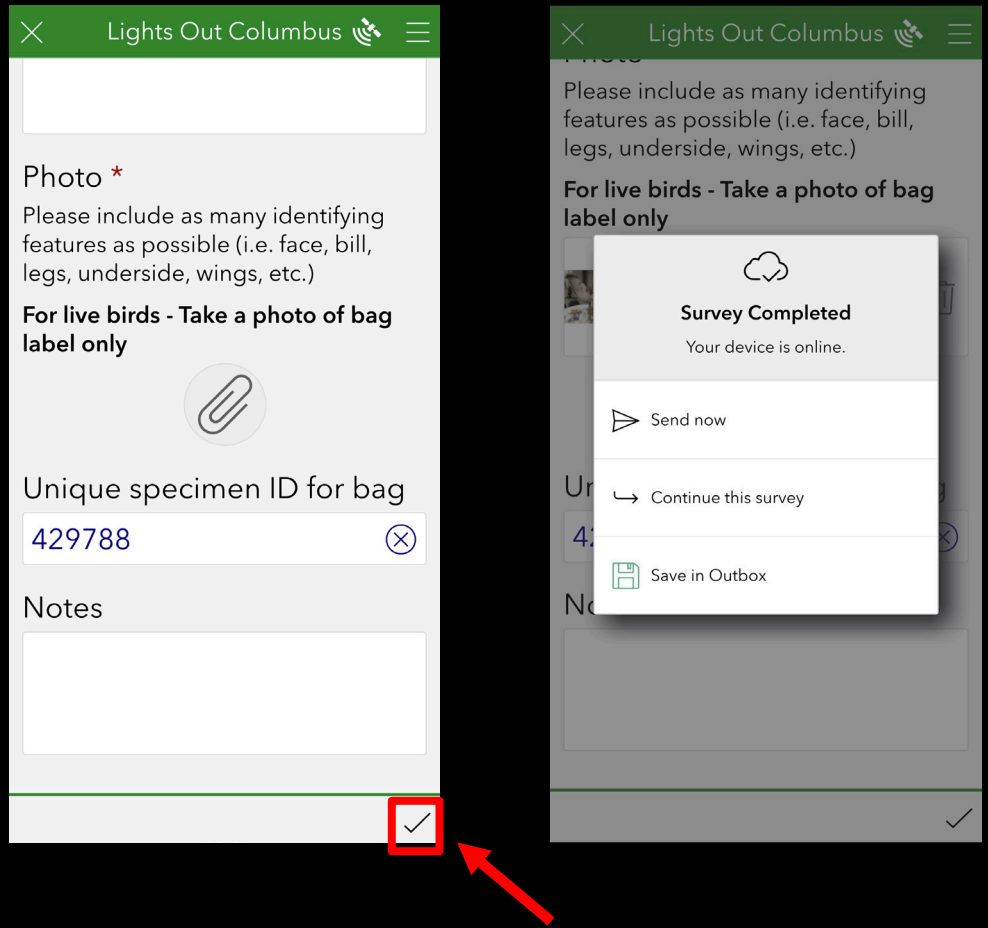

The *unique specimen ID* will need to be written on the collection bag. This is a very important step, as this will allow us to connect the bird in the bag to the data collected

When finished with the survey, click the check mark in the bottom right corner

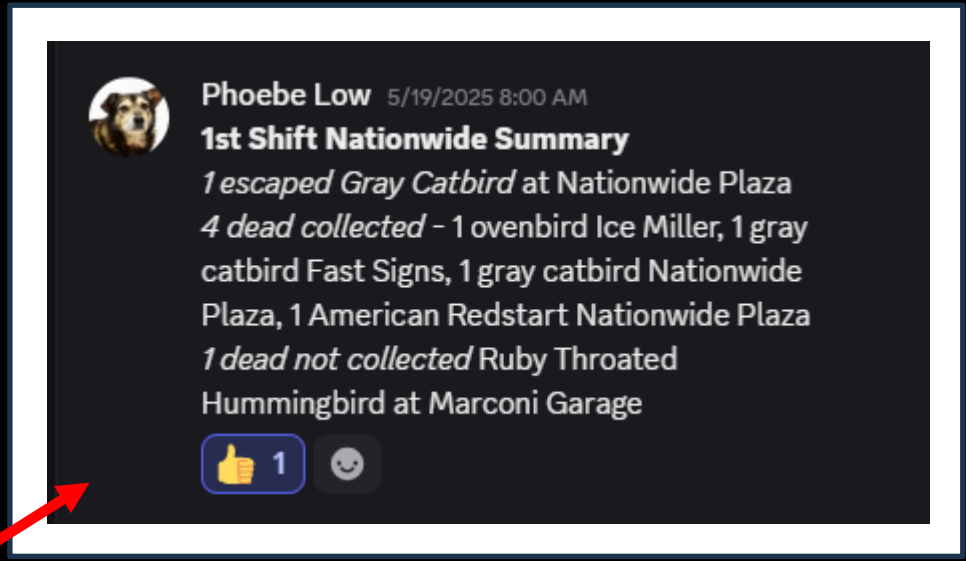

You will then select “send now”

The app will submit the survey and then redirect you to begin the next survey

Digital data collection– workflow summary

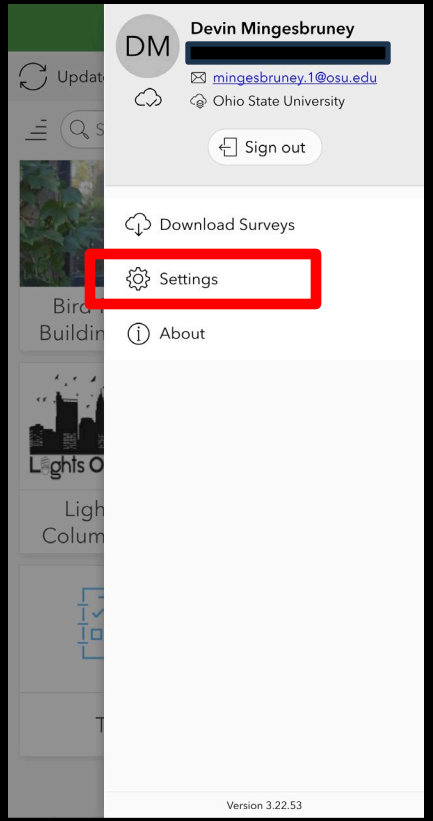

- Fill out a survey for every collision bird (and bat) including live, dead, and escaped
- For ***live birds***: write the unique ID, date, time, and address on the bag (to help with admissions at the hospital)
- For ***dead birds***: write the unique ID and date on the bag
- Report a brief summary in the daily threads on Discord

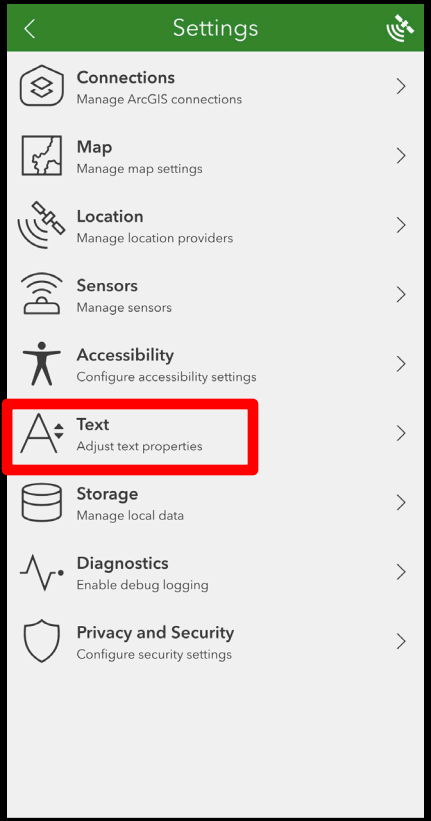

Digital data collection- tips and tricks

- When you are finished surveying, please close out of the app on your phone
  - It will continue to use GPS and may drain battery power

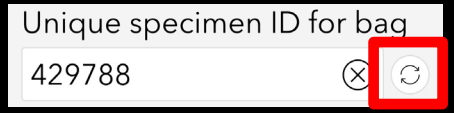

- If you need to increase text size on survey, you can change this in the settings within the app

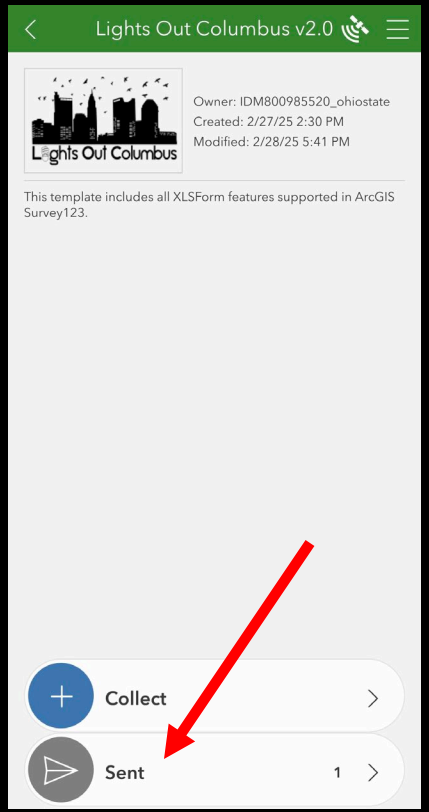

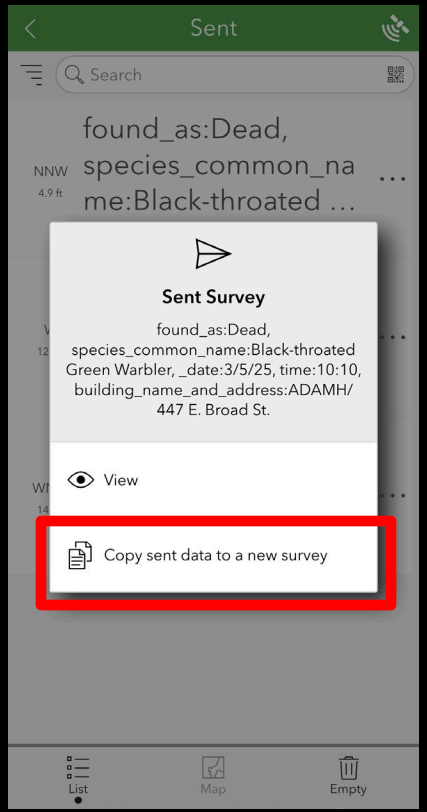

Digital data collection - tips and tricks

- Did you find two birds or more at the same location?
- You will still need to complete a separate survey but, you can copy the information from a submitted survey to a new survey
  - You may then make any edits if needed
  - ***Please note: you will need to refresh the Unique ID for a new number***

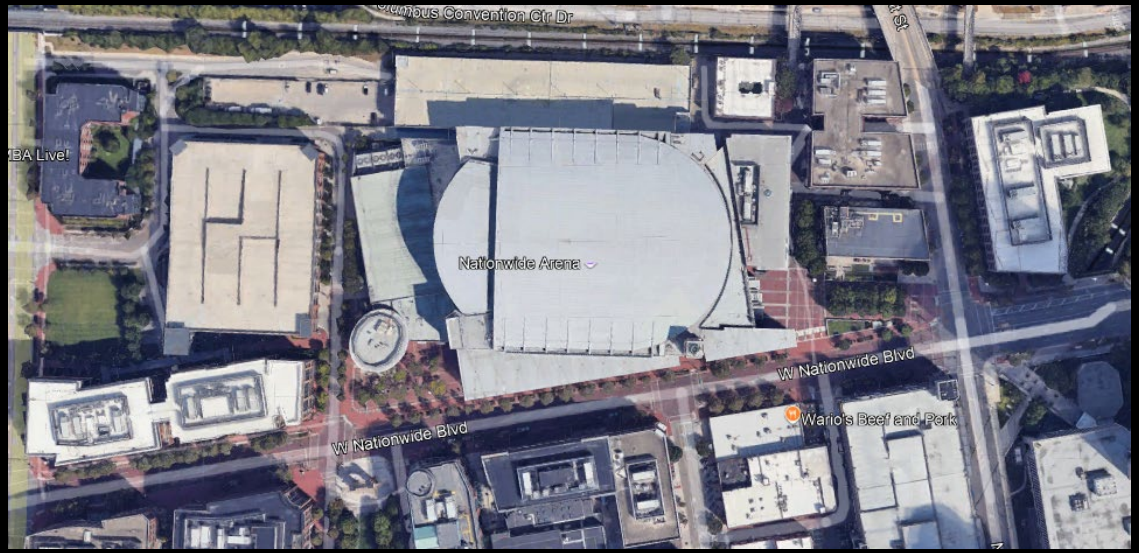

Digital data collection– building name updates

Nationwide Arena

This name has not changed, but please use this name/address for the box office and Tim Horton's as well

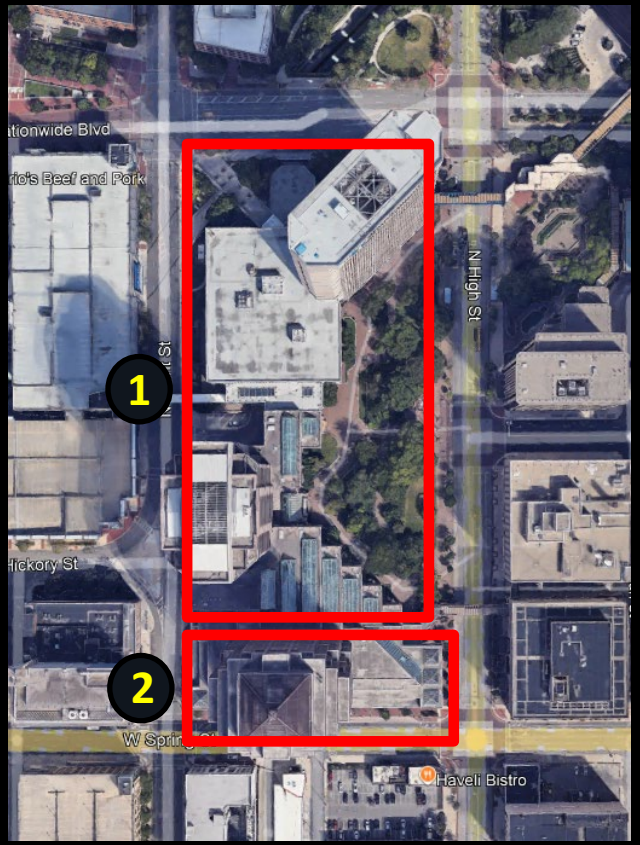

Digital data collection– building name updates

Nationwide Plaza and William Green Building

1. Nationwide plaza and atrium will be combined– Nationwide Plaza

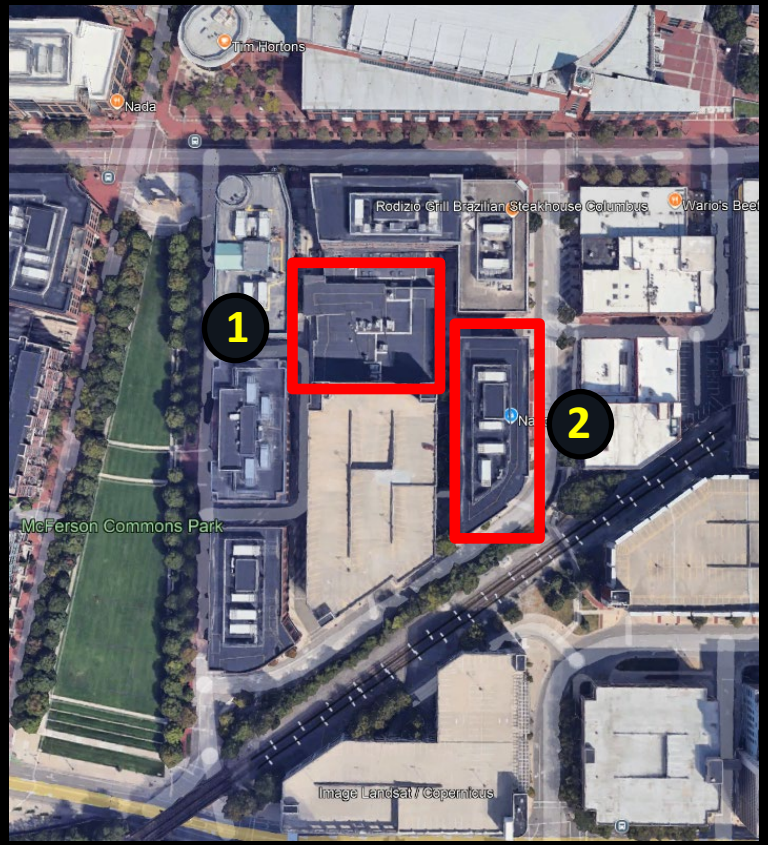

2. William Green Building will still be separate

Digital data collection– building name updates

Nationwide CoOperative and Nationwide Marconi

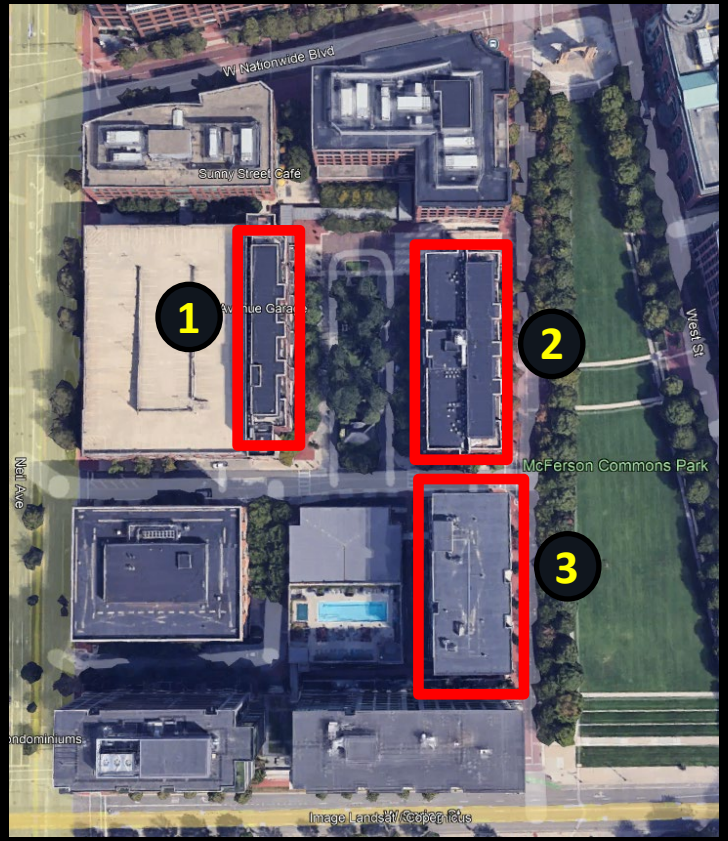

1. Nationwide CoOperative
2. Nationwide Marconi- formerly known as Marconi garage

Digital data collection– building name updates

Burnham Square Condos

1. Burnham Square Condos West
2. Burnham Square Condos North
3. Burnham Square Condos South
